WEEK 9 TERM 3

Monday 17th September 2018

PRINCIPAL'S MESSAGE

Week 8 was a week full of sporting opportunities for some of our students, with a Touch Gala Day and the Western Athletics Carnival. Congratulations to our touch team who braved the warm, windy weather last Tuesday. Ayla, Kaleb, Lily, Reily, Tyrelle and Zara travelled to Griffith to take part in the 'Come-and-Try' gala day. Our older students led the way, while our younger students had their first taste of school sport. Congratulations also to our Western Athletics team who represented Lower Lachlan at Dubbo on Friday. Kaleb, Lily, Ella and Isabelle came third in the final of the Austen Relay which qualifies them to compete at the state carnival on the 31st October. A big thank you to their parents for organising accommodation and transport to allow them the opportunity.

On Thursday, the Bland Shire made their annual author visit to NPS, bringing with them Bernard Caleo, Author, Illustrator, Storyteller and Performer. Bernard told the students stories from an ancient story box from Japan and drew a cartoon version of Reily.

Last week, we also had a number of students and staff out sick. It can be difficult to know when to keep students at home and when they are well enough to come to school. With a number of illnesses going around the community at the moment, I have attached a document provided by NSW Health and the Department of Education that you may like to refer to if you're unsure.

Have a great Week 9!

Miss Denna Tye

Principal

Kaleb, Ella, Lily and Isabelle at the Western Athletics carnival

Ayla, Reily and Zara take a break between games at the Touch Gala Day.

Ayla, Tyrelle, Kaleb, Lily, Zara and Reily participated in the Touch Gala Day in Griffith on Tuesday.

WEEK 9 TERM 3

Monday 17th September 2018

Some action shots from the Touch Gala Day in Griffith on Tuesday.

WHAT'S COMING UP?

SMALL SCHOOLS PUBLIC SPEAKING

The Small Schools Public Speaking Competition will be held this Wednesday 19th September. The competition is open to Stage 2 students (Years 3 & 4) who are given a number of topic choices to prepare a speech on and present to the judges via Video Conference. Students have chosen their topics and have been asked to work on their speeches at home. They will be given support at school to write their speech up on palm cards. The competition begins at 9.15am.

OLI TOWNSEND CONCERT

The 10th Oliver Townsend Concert will be held this Thursday 20th September at 7pm. Students have been practising with Mrs Kerrie Johnston. Kerrie has also put in a lot of work behind the scenes with organising music and costumes for the night. We look forward to the concert and hope everyone can make it in to watch us perform. Everyone to meet at the Lake Cargelligo hall at 6:45 pm please.

RANKINS SPRINGS ROUND ROBIN

The Rankins Springs Round Robin is this Friday 21st September. Kinder & Year 1 students will participate in Tabloids and Years 2-6 will be competing in the Soccer and Netball Round Robin. Thanks to everyone for getting their canteen orders in so quickly. Please make sure permission notes have been returned prior to Friday and you have let the school know if you Require transport for your children.

FOOTY COLOURS DAY

The SRC will be hosting a Footy Colours Day on the last day of term, Friday 28th September. Students are encouraged to wear their team colours and will be able to order lunch on the day. A lunch order is attached to the newsletter. Please return with money ASAP so food can be purchased.

Author Visit: Bernard Caleo

The students enjoyed an energetic presentation from Bernard about how to draw cartoons and lots of stories. He has travelled to Japan where he learnt a lot about drawing cartoons and really enjoyed his time in Japan learning some of the language.

Ngambaa Art Exhibition

Our students' artworks are currently part of an exhibition at the Wagga Wagga Art Gallery.

Too sick for school?

Generally if your child feels unwell, keep them home from school and consult your doctor. This chart and the information it contains is not intended to take the place of a consultation with your doctor.

Bronchitis	Symptoms are coughing, a runny nose, sore throat and mild fever. The cough is often dry at first, becoming moist after a couple of days. There may be a slight wheeze and shortness of breath. A higher fever (typically above 39°C) may indicate pneumonia.	 ... until they are feeling better. Antibiotics may be needed.
Chickenpox (Varicella)	Slight fever, runny nose, and a rash that begins as raised pink spots that blister and scab.	 ... for 5 days from the onset of the rash and the blisters have dried.
Conjunctivitis	The eye feels 'scratchy', is red and may water. Lids may stick together on waking.	 ... while there is discharge from the eye unless a doctor has diagnosed a non-infectious cause.
Diarrhoea (no organism identified)	Two or more consecutive bowel motions that are looser and more frequent than normal and possibly stomach cramps.	 ... for at least 24 hours after diarrhoea stops.
Fever	A temperature of 38.5°C or more in older infants and children.	 ... until temperature is normal.
Gastroenteritis	A combination of frequent loose or watery stools (diarrhoea), vomiting, fever, stomach cramps, headaches.	 ... for at least 24 hours after diarrhoea and/or vomiting stops.
German measles (Rubella)	Often mild or no symptoms: mild fever, runny nose, swollen nodes, pink blotchy rash that lasts a short time.	 ... for at least 4 days after the rash appears.
Glandular Fever (Mononucleosis, EBV infection)	Symptoms include fever, headache, sore throat, tiredness, swollen nodes.	 ... unless they're feeling unwell.
Hand, Foot and Mouth Disease (HFMD)	Generally a mild illness caused by a virus, perhaps with a fever, blisters around the mouth, on the hands and feet, and perhaps the nappy area in babies.	 ... until all blisters have dried.
Hayfever (Allergic rhinitis) caused by allergy to pollen (from grasses, flowers and trees), dust mites, animal fur or hair, mould spores, cigarette smoke	Sneezing, a blocked or runny nose (rhinitis), itchy eyes, nose and throat, headaches.	 ... unless they feel unwell or are taking a medication which makes them sleepy.
Head lice or nits* (Pediculosis)	Itchy scalp, white specks stuck near the base of the hairs; lice may be found on the scalp.	 ... while continuing to treat head lice each night. Tell the school.

Hepatitis A	Often none in young children; sudden onset of fever, loss of appetite, nausea, vomiting, jaundice (yellowing of skin and eyes), dark urine, pale stools.	 ... for 2 weeks after first symptoms (or 1 week after onset of jaundice). Contact your doctor before returning to school.
Hepatitis B	Often no symptoms in young children. When they do occur, they can include fever, loss of appetite, nausea, vomiting, jaundice (yellowing of skin and eyes), dark urine.	 ... if they have symptoms. Contact your doctor before returning to school.  ... if they have a chronic infection (not the first outbreak) and no symptoms.
Impetigo (School sores)	Small red spots change into blisters that fill up with pus and become crusted; usually on the face, hands or scalp.	 ... until antibiotic treatment starts. Sores should be covered with watertight dressings.
Influenza	Sudden onset fever, runny nose, sore throat, cough, muscle aches and headaches.	 ... until well.
Measles	Fever, tiredness, runny nose, cough and sore red eyes for a few days followed by a red blotchy rash that starts on the face and spreads down the body and lasts 4 to 7 days.	 ... for at least 4 days after the rash appears.
Meningococcal Disease	Sudden onset of fever and a combination of headache, neck, stiffness, nausea, vomiting, drowsiness or rash.	Seek medical attention immediately. Patient will need hospital treatment. Close contacts receive antibiotics.
Molluscum Contagiosum	Multiple small lumps (2–5mm) on the skin that are smooth, firm and round, with dimples in the middle. In children, occur mostly on the face, trunk, upper arms and legs. Symptoms can last 6 months to 2 years.	
Mumps	Fever, swollen and tender glands around the jaw.	 ... for 9 days after onset of swelling.
Ringworm* (tinea corporis)	Small scaly patch on the skin surrounded by a pink ring.	 ... for 24 hours after fungal treatment has begun.
Runny nose or common cold		 ... unless there are other symptoms such as fever, sore throat, cough, rash or headache. Check with school.
Scabies*	Itchy skin, worse at night. Worse around wrists, armpits, buttocks, groin and between fingers and toes.	 ... until 24 hours after treatment has begun.
Shigella	Diarrhoea (which may contain blood, mucus and pus), fever, stomach cramps, nausea and vomiting.	 ... until there has not been a loose bowel motion for 24 hours. Antibiotics may be needed.
Slapped Cheek Syndrome (Parvovirus B19 infection, fifth disease, erythema infectiosum)	Mild fever, red cheeks, itchy lace-like rash, and possibly cough, sore throat or runny nose.	 ... as it is most infectious before the rash appears.
Whooping Cough (Pertussis)	Starts with a running nose, followed by persistent cough that comes in bouts. Bouts maybe followed by vomiting and a whooping sound as the child gasps for air.	 ... until the first 5 days of an antibiotic course has been completed. Unimmunised siblings may need to stay home too until treated with an antibiotic.
Worms (Threadworms, pinworms)	The main sign of threadworms is an itchy bottom. Sometimes children feel 'out of sorts' and do not want to eat much. They may also have trouble sleeping, due to itching at night.	 ... and tell the school as other parents will need to know to check their kids.

***It is important that the rest of the family is checked for head lice, scabies and ringworm**
